Georgia's Vehicle Registration and Renewal Data Base System to be Unavailable Due to Maintenance

ATLANTA—On Saturday, Feb 17, county vehicle tag offices throughout Georgia will only be able to provide minimum service due to required maintenance being performed on the computers that house the state's motor vehicle registration and title data bases.

Beginning Friday, Feb. 16 at 7 p.m. and continuing until Monday, Feb 19 at 6 a.m., local tag offices will not be able to contact the central data system to transact any business regarding motor vehicle registration and titling.

Internet renewal and registration will also be unavailable from Feb 16 at 7 p.m. until Monday, Feb 19 at 6 a.m.

"We recommend that individuals who are planning to conduct business at their local motor vehicle tag office on Saturday contact the office beforehand to determine if they can complete their business," said Georgia Revenue Commissioner Bart L. Graham. "All local offices should be fully operational during their normal business hours on Monday, Feb 19.
